Work Home School

See near, far and everything in between with Acrobat. It's our most flexible solution for reading, writing or viewing magnified images at any distance. Use it up close like a mirror for applying make-up or other personal grooming.

By simply rotating the camera you can magnify images in the distance. Use it to view presentations, paperwork, even work on crafts and hobbies. Acrobat is ideal for work, school or home and is easily transported.

“ I love my Acrobat! It has truly given me a new lease on life. I can read Bible sized print, do more detailed things like tying fishing hooks and flies. Things I used to depend on others to do for me I now do myself. There's no end to the potential for this wonderful device.”

—Carrol C. “Red” Myer

**ACROBAT LCD** is a complete system featuring a 3-in-1 camera with a 19” or 22” monitor. The adjustable arm and rotating capability allows the camera to be positioned at any angle for optimal viewing. A built in handle allows for easy transport.
